# New York Stock Market

New York, March 4.—Wall Street's chief interest to-day lay in the progress of events at Washington. So far as was revealed by the stock market, the barometer of sentiment in the financial district, the coming in of a Democratic administration was the occasion of no shifting of position, for the market was dull and narrow most of the day.

The street saw nothing in the inaugural address of President Wilson to awaken apprehension. Definite indications of the attitude of the administration on matters of concern in the

istration on matters of concern in the financial district are awaited with eagerness. In the absence of such indications to-day the market was permitted to drift. As the day progressed the tone became heavier. A few of the prominent stocks, including Penn-sylvania, Union Pacific, St. Paul, Steel, Amalgamted and Smelting, lost a point Selling was at no time heavy,

The market missed the sustaining

The market missed the sustaining influence of the recent European buying. London did little in this market. Berlin sold Canadian Pacific, which lost nearly three points. Foreign markets were less cheerful. German bankers were again in this market to-day, offering 5 per cent for thirty-day money, "exchange guaranteed."

Traction stocks enjoyed no further rise on the strength of the approval of the subway contracts, which was discounted in yesterday's quick upturn. New Haven, which still feels the effect of its poor January statement, fell to 1235, the lowest for a quarter of a century. American coal products, against which suit was inetituted yesterday under the Sherman law, fell seven points.

Bonds were irregular, with further heaviness of some important issues. Total sales, par viaue, \$2,157,000. United States bonds unchanged on call

New York, March 4 .- Money on call New Tork, March 4.—Money on calicasier, 2@3½ per cent; ruling rate, 3½; closing bid, 2; offered at 2½. Time loans steady; sixty and ninety days and six months, 4%@5 per cent. Prime mercantile paper, 5 to 5½ per cent. Sterling exchange firm, with actual business in bankers' bills at \$4.8360 for elxty-day bills and at \$4.8780 for demand. Commercial bills, \$4.82%. Bar silver, 59%. Mexican dollars, 4%. Government bonds steady; railroad bonds irregular. bonds irregular.

New Orleans, March 4.—It was a waiting market on the Cotton Exchange to-day. Traders on both sides were desirous of more information regarding the new crop and to wait upon developments in the new administration in Washington. The range of prices was very narrow. On the opening the tone was sleady and prices were unchanged to 4 points up compared with the close of yesterday, and cables were colorless. A fair amount of buying come in around the opening and put prices in in the early trading 293 points up net. Later the good weather map and favorable reports regarding the progress of new crop preparations had their influence, and the advance was lost. Around the middle of the day the most active menths were 1912 points under yesterday's floai quotations. The close was quiet and steady with prices unchanged to 2 points down compared with the closing level of yesterday. Spot cotton quiet and unchanged; middling, 12½c; sales on the spot 181 bales and 162 to arrive. Closing bid: March. 12.23; April. 12.13; May, 12.24; July, 12.23; August, 12.69; September, 11.65; October, 11.67; December, 11.68.

wile was recorded at 100 5-3, and the roker that was left at the post with the 100 shares, found that the best bid as 100, where the next sale occurred. Buch conditions make it impossible to ado by the tape. In many of the minor industrials the market was equally poor, quotations varying from 1 to 3 per cent from the sale of the day, and with a very light demand at the reduced figures. This is not a healthy condition, and has been known to exist prior to periods of renewed liquidation. To-day's market was dull throughout with pronounced weakness in the afternoon. Whether or not the inauguration had anything to do with the change of sentiment, selling orders appeared in the market and a general decline set in that was conspicuous owing to the duliness.

iline set in that was conspicuous owng to the duliness.

New Haven sold at 123 1-4, the lowest price recorded since 1875; in 1889 these shares sold as high as 279.

The favorable report of the Pennsylvania Railroad was overshadowed stock market-wise by the remarks of the company's president relative to the large amount of new financing that confronts the company.

The heaviness in Union Pacific that started by selling fer foreign account.

The heaviness in Union Pacific that tarted by selling for foreign account, was hastened by the rumor that 2 new plan of dissolution is being prepared. Venkness developed in the Berlin narket, and Canadian Pacific was sold for German account up to the close of our market.

The traction shares sold off sharply. Can issues were notably weak, and here was a renewal of the selling in amalgamated Copper on the rumor or mather was a renewal of the selling in the Amalgamated Copper on the rumor of another unsettlement on the price of Mrs. Majell-Rosenburg, of Texas, presented to the Yeardiy house at James-Mexican Petroleum, United States Rubber, Studebaker, Underwood preferred and Woolworth were decidedly weak. These issues are all of a class and should be avoided, as a further readjustment seems bound to take place. Bank cashiers are more inquisitive than ever, and industrial stocks that han ever, and industrial stocks that lave not good records, or, as in some ases no records at all, do not find

easy lodgment in loan envelopes.

Money is the keynote of the present market, and it is not a local condition.

This stringency is forcing a readjustment of value.

ment of value.

The Japanese government found it necessary to-day to pay 51-2 per cent to secure \$15,000,000 through the sale of two-year treasury notes. Berlin banks are making strong effort to secure funds here, and gold shipments to Berlin are now being discussed. In fact, from the demands in sight the indications are that most of the borrowings will have to be done on a very higher basis. This, of course, precludes the possibility of any funds being provided for stock market operabeing provided for stock market opera-

tions.

The stock market, it should be repeated, is thin. The recent rally re-duced the short interests materially, and the market is now without this very helpful support. Prices may be expected to shade off just in propor-tion to the urgency of the selling. We are in one of those periods where it is probably wisest to hasten selling orders and to be very slow in buying.

#### HIGHER COAL RATE OPPOSED

# Richmond, Va.

Widespread Readjustment of Values Being Forced by Stringency in Funds.

BY BROADAN WALL.

[Special to The Times-Dispatch.]

New York, March 4.—The stock market is thin—very thin. To illustrate, a broker was given an order to sell 100 Southern Pacific at the opening, another broker had a similar order, and there was a buying order for 100. A string trained rates on coal carried from the Illinois mines to St. Louis and to dissolve the bureau as a combination in restraint of trade.

The suit was filed by Attorney-General Wickersham and E. C. Crow for the government, and resulted from an announced increase of 5 cents on coal rates to St. Louis, which was to have been effective April 1.

Butler Thinks Public Should Not Suffer for Police Court Delays. Having failed, he says, to receive the

protection of life and limb in the use protection of life and limb in the use of buildings in imminent danger of collapse. Building Inspector Butler will recommend shortly the adoption of an ordinance similar to that in vogue in many cities, to put placards on houses reported to be in unsafe condition, so as to warn all innocent persons of their condition. Mr. Butler claims that the work of his office is being practically nullified by the interminable continuances granted on small protext by the Police Justice.

"The Board of Health placards all houses where there are contagious diseases," said Mr. Butler yesterday. "All over Richmond one may see houses bearing a card showing that there is a case of measies inside. The city puts the public on notice, and where there is no other form of quarantine, the city has done its part, and any person who enters a house bearing such a placard takes his own risk, and if he takes the disease has no one but himself to blame. I find from reading the building laws that a number of cities have applied this idea to unsafe buildings. Where the Building Inspector reports a building in unsafe condition a placard must be prominently displayed on its front, warning all persons of its condition. When proper repairs are made and the building reinspected the placard is removed." of buildings in imminent danger

#### SOCIETY LEADER ARRESTED

Mrs. Maude Stewart Accused of Threntening Rival by Mail. Chicago, March 4.—Mrs. Maude Stewart, said to be a social leader of Stewart, said to be a social leader of Antigo, Wis., who is under arrest here charged with having sent through the mails a threatening letter to Mrs. R. H. Van Ostrand, was admitted to bail to-day in bonds of \$2,000, signed by Thomas J. Pringle, of Milwaukee, where the defendant will be required to appear at the April term of the Federal Court.

Both families involved are wealthy. The trouble which preceded the writing of the letter is said to have been a dispute between the women over the social leadership of Antigo.

Mrs. Stewart and her husband were on a shopping tour here when she was arrested. They planned to leave for Florids this evening.
